NOW THEREFORE, in consideration of the mutual covenants, promises, and agreements herein contained, it is hereby understood and agreed by the parties hereto as follows:

The District shall furnish, subject to the limitation set out in its Bylaws and Rules and Regulations now in force or as hereafter amended, such quantity of water as Member may desire in connection with Member's occupancy of the following described property:

1. Street Address: _____

The District shall install, upon payment of a \$1,050.00 TAP/Connection Fee and a \$50.00 deposit (total of \$1100.00), a water meter, a cutoff valve, approved back flow device and a service line which shall begin at the water main line and extend to the property line. The District shall have exclusive right to use cutoff valve and water meter. The service line shall connect with the water main line of the District at the nearest place of desired use by the Member, provided the District has determined in advance that the system has sufficient capacity to permit delivery of water at that point.

The Member agrees to grant to the District, its successors and assigns, a perpetual easement in, over, under and upon the above-described land, with the right to erect, construct, install, and lay, and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines and appurtenant facilities, together with the right to utilize adjoining lands belonging to the Member for the purpose of ingress and egress from the above-described lands.

The District shall have final authority in any question of location of any service line connection to its water main line; shall determine the allocation of water to Members in the event of a water shortage; and may shut off water to a Member who allows a connection or extension to be made of the member's service line for the purpose of supplying water to another user. In the event the total water supply shall be insufficient to meet all of the needs of the Members, or in the event there is a shortage of water, the District may prorate the water available among the various Members on such basis as is deemed equitable by the Board of Directors, and may also prescribe a schedule of hours covering use of water for garden purposes by particular Members and require adherence thereto or prohibit the use of water for garden purposes; provided that, if at any time the total water supply shall be insufficient to meet all of the needs of all the Members, the District must first satisfy all of the needs of all Members for domestic purposes before supplying any water for livestock purposes and must satisfy all the needs of all Members for both domestic and livestock purposes before supplying any water for garden purposes.

The Member agrees that no other present or future source of water will be connected to any water lines served by the District's waterlines and will disconnect from the present water supply prior to connecting to and switching to the District's system and shall eliminate their present or future cross-connections in the member's system.

The Member shall connect the service lines to the District's water meter and shall commence to use water from the system on the date the water is made available to the Member by the District. Water charges to the Member shall commence on the date service is made available, regardless of whether the Member connects to the system.

In the event the Member shall breach this contract by refusing or failing, without just cause, to connect a service line to the District's distribution system as set forth above, the Member agrees to forfeit his rights to the meter. In the event the Member request a meter in the future, the full cost for installation of the meter and appurtenances will be paid by the member (Currently \$1,050.00).

The failure of a customer to pay water charges duly imposed shall result in the automatic imposition of the following penalties:

1. Nonpayment within ten days from the due date will be subject to a penalty of ten percent of the delinquent account.
2. Nonpayment within thirty days from the due date will result in the water being shut off from the Member's property.
3. In the event it becomes necessary for the District to shut off the water from a Member's property, a fee set by the District in its rate schedule will be charged for a reconnection of the service.
